

We will take up this stone table, resting-place under it. The table

[illegible]

**DEPARTMENT OF PUBLIC WORKS.**  
TENDERS FOR PUBLIC WORKS AND SUPPLIES.  
TENDERS are invited for the following public works and supplies, viz:—  
GARDENS, a list of which is kept in every public office in the colony.

Nature of Works and Supplies.	Date to which Tenders can be received at this office.
Moruya River Improvements.	12 o'clock noon, on Tuesday, 9th July.
Supply of Iron Bark Timber for Fitz Roy Dock Works.	12 o'clock noon, on Tuesday, 9th July.
Supply of Iron Bark Timber for Fitz Roy Dock Works.	12 o'clock noon, on Tuesday, 9th July.
Supply of Iron Bark Timber for Fitz Roy Dock Works.	12 o'clock noon, on Tuesday, 9th July.
Supply of Iron Bark Timber for Fitz Roy Dock Works.	12 o'clock noon, on Tuesday, 9th July.

N.B.—No tender will be taken into consideration, unless the name of the work for which it is intended is written on the cover.

**COMMISSARIAT—TENDERS FOR FREIGHT.**  
The Assistant Commissary-General will receive sealed tenders, in duplicate, at the Commissariat Office, 4, Ballarat-street, until FRIDAY, WEDNESDAY, July 3rd, for the conveyance of 220 tons (more or less) of stores from Sydney to Auckland, New Zealand.

The tenders will be calculated according to the Admiralty scale, to be seen at this Office, and the tenders will state the price per ton of 40 cubic feet, and the date of the vessel's departure.

Sydney, 27th June.

**AUSTRALIAN MUTUAL PROVIDENT SOCIETY.**

**ASSURANCE BRANCH.**

Extracts from Tables and Specimens of Bonus Additions.

TABLE A.—PREMIUMS payable throughout life for £100 to be paid at death.

Age.	Pre-mium.	Age.	Pre-mium.	Age.	Pre-mium.
20	1 17 6	30	2 10 0	40	3 10 0
30	2 10 0	40	3 10 0	50	4 10 0

[illegible]

THE WIDENER MORNING HERALD, WEDNESDAY, JULY 3, 1881.

**SIR W. W. BURTON'S DEPARTURE.**  
SIR WILLIAM departed from our shores yesterday, a passenger in the fine ship *Damascus*. About two o'clock, a number of gentlemen assembled on the deck of the *Whiting* and the steamers for the purpose of finally taking leave of our dear Sir and his family. Amongst those present were Mr. Deas-Thomson, Mr. Isaacs, Mr. J. Campbell, Mr. A. Berry, Mr. Hay, Mr. C. Irving, Mr. J. Fairfax, Mr. M. M. M., Mr. G. Wilkie, Mr. Burton Bradley, Mr. E. Burton, &c. &c.

A valdictory address, which had been prepared for presentation received the signatures of most on board. The Washington then left the Circular Quay and proceeded to the Diamond. When alongside the ship, which lay in the S rear, a short distance from Fort Denison, the company approached Sir William, then on board the Washington, and Mr. John Campbell stated that they had assembled to present to him a final address, but why he (Mr. Campbell) had been selected from the many gentlemen on board to present it, he could not understand.

Certainly he had no objection to do so. He had known Sir William Burton for many years, and was convinced of his integrity and honesty as a man; he could not, therefore, hesitate to deliver this address.

Mr. Campbell then read the address, which referred to the high character and respect Sir William had while a Judge in this colony, earned for himself the value of his political services and his uprightness, constitutional, and dignified conduct as President of the Legislative Council—to the esteem and honour of his zealously benevolent social life had secured for him—and finally deplored those unconstitutional proceedings which had led to his retirement from the Council Chamber and from the colony.

Mr. Campbell.—You need not, I think, Mr. Campbell, explain or offer an excuse for the selection of yourself to occupy this address; for when I remember that you are the grandson of old Robert Campbell, the maintainer of all good and sound principles, and that you are a man of such high character, an apology necessary for yourself in the present circumstances.

Gentlemen.—To answer such an address as you have done me the honour to present is a task of so great difficulty that it would gladly be spared the expression of my feelings.

The testimony you so generously bear to my character is the

[illegible]

Only those whose only capital is the talent of pandering to the prejudices of a populace abused and deluded for their own good, will ever again be able to do so.

Apart from the arena of political battles, I must yet ever look with anxiety upon the issue of that contest which is only but just begun, between those who would maintain the Constitution in its integrity, and those who would first lower and degrade, and then utterly destroy our framework, if it is order to give the entire people a chance to live.

Let us have the gentleness of this colony to remember, that it is only in their union that right principles can be maintained, and that their union that her Majesty's representative, and the Legislature

Sir William soon after went on board the *Dan* which was immediately towed out to sea. By far the larger part of the company proceeded with the *Washington* some miles outside the Head, and when the hawser was thrown off gave three hearty cheers.

**VOLUNTEER FIRE COMPANIES.**—A letter has been

received by the Secretary of the Sydney Volunteer Fire Company, No. 2, from Mr. A. Tarning, who, it will be remembered, was formerly Superintendent of the No. 1 Company. Mr. Tarning is in San Francisco and speaks in glowing terms of the number and efficiency of the Volunteer Fire Brigades in that city. It appears that they have no less than fourteen companies, possessing engines and houses of their own besides having carriages and two steam fire-engines.

also—what is much required in Sydney—a city hall bell, of sufficient size, and in such a position, to be heard from a great distance; and also an arrangement by which, on hearing the bell, the different brigades are informed as to the locality of the fire. Mr. Torrance, who has recovered from the accident he met with some time since, is now attached to *San Francisco* Engine, No. 1, in San Francisco.

Patrick Hickey, who died in the infirmary on Saturday last from injuries sustained by a blasting explosion in one of the cuttings of the railway works between Campbelltown and Picton, about a month since, was commenced by Mr. J. S. Parker in his office, yesterday, and adjourned to Thursday next (to-morrow) for further evidence.

PROPAGATION OF THE SALMON.—The Bombala correspondent of the *Monro Mercury*, writing to the

paper, says:—Mr. Black and his party have arrived in Bombala, on route for the Snowy River, with canoes, boats, &c., to test the capabilities of that noble stream and its tributaries for propagating those delicious fish, the English salmon and salmon trout. Mr. Black is delighted with the appearance of the Bombala River, and thinks the long reaches would make excellent haunts for the salmon trout. The temperature of the river is very congenial for the

fish, and the river not possessing any of the voracious  
snuffy tribe, only the harmless eel, renders it one of  
the most suitable streams for the purposes intended.  
We think if the eels were deposited in the Bonabahal  
and Delegate rivers, the young fry would soon make  
their way to their junction with the Snowy River,  
and from thence to the sea, and would thus form  
a certain way of introducing the noble fish; the water  
of the Snowy River, from the melting of the snow in

summer are always cool. Another advantage which would attend the depositing of the ova in these rivers is the ease with which the fish might be forwarded to the cities of Sydney and Melbourne, via Twofold Bay. It is not likely to be in our day, but our children may see the day and love the haunts of the fish, like Isaac Walton, of old, and our city friends take their innocent recreation in marring the gootly fish, and thus imbibe an attachment to the streams of the

**CULTURE OF SILK.**—A preliminary meeting was held yesterday afternoon, at Mr. Mort's Rooms, Pitt-street, for the purpose of taking into consideration the expediency of introducing the culture of silk in this colony. Mr. T. S. Mort occupied the chair. After some conversation, in which Mr. Mort, Mr. Smart, and Mr. B. Buchanan were the principal speakers, it was resolved

PATENT BREAD.—We received from LANCETON specimens of the patent bread, without yeast or potatoes, a week old, and we cannot doubt that it is universal use is only a question of time. The quality and flavour are superior, and we imagine in many cases much better for invalids than fermented bread.

The flour and water are, we understand, impregnated with carbonic acid gas, like soda water, and being thus raised, the dough is baked in the usual way without tins. This process would render the long hours of the baker unnecessary.

strainer. Mr. White, chief officer of the vessel, with the assistance of other persons, succeeded in getting the old man out of the water; but he, being weak from old age and ill health, expired soon after his immersion. The body was removed to the headquarters of the Benevolent Asylum, and an inquest on it was commenced by the City Coroner, yesterday, but adjourned until to-day for further evidence. Coroner's jury, and two other old men who were in the

**COW KILLED ON THE RAILWAY.**—A rather ludicrous accident occurred the other day, at the Hexham railway station. It appears that a cow and calf had been brought down from Maitland, to be delivered at Hexham, and on the platform was one of

the railway porters, whose complexion was as decidedly "ebony" that the poor beast got frightened and "derkey" becoming affected with the same fever, and the scene grew somewhat amusing, the poor animal butting at every one within reach. Ultimately she found her way on to the line, and the engine of the evening train performed the ultimate operation which would have been done better, though not more effectually, by the butcher.—*Newcastle Chronicle.*

Damaged Black and Coloured Velvet Ribbons, 36-inch Un-  
domestics, &c., This Day.—We are requested by Mr. Christie  
Trenkle to direct the attention of the trade to his unservice-  
able of drapery, &c., damaged and sound goods, woollens, shawls,  
hats, caps, perfumery, &c., this day, at his Rooms, commencing  
at 11 o'clock. See advertisements.—A.W.

Those words of mine are ended. I will now commence upon another subject among the many which we talk

u/nla.news-page1485

3 handsome boys' ponies, very quiet to ride  
1 dainty lady's horse, well broken-in, no vice  
5 good stock horses, with saddles and bridles complete  
Spring carts, drays, dog-carts, gigs, harness, &c.

2111 —Part bale, 3 pieces slate union, 413½ yards  
3 pieces 6-8 points, 103 yards.  
All more or less damaged by sea water.  
Taxes, comm.

DAY, 4th instant, at 11 o'clock,  
Counter, bar figures, beer engine, spirit fountain, quan-  
tity of ale, beer, wine, and spirits.

above size.  
The above. Terms, cash.  
The only lot now in the market.

This is another lot from those far-famed herds of Andrew Brown, Esq., of the Castlerough River, so justly esteemed by the trade.

**JOHN G. COHEN, auctioneer.**
